About the Vishwavidyalaya :

Gurukul Kangri Vishwavidyalaya was founded on 4th March, 1902 by Swami Shraddhanand ji, with the sole aim to revive the Ancient Indian Gurukul system. This Institution was established with the objective of providing an indigenous alternative to British Education Policy by imparting education in the areas of Vedic literature, Indian Philosophy, Indian Culture, Modern Sciences and Research. Gurukul Kangri Vishwavidyalaya is a deemed to be University fully funded by the UGC/Government of India. The upliftment of the women of our country through education has always been an integral part of the policies of Gurukul Kangri Vishwavidyalaya (GKV). In order to fulfill this aim, Kanya Gurukul Campus was set up in 1922, at Dehradun by great martyr Acharya Guru Ramdevji, as a center for women's education and was recognized as the second campus of Gurukul Kangri Vishwavidyalaya by UGC in 1986. Although the foundation of the institute was grounded with a few courses and subjects only, but now, it offers various traditional, technical and professional courses to fulfill the requirements of the current age. KGC is situated in the foothills of the Himalayas covering a land area of 9,000 sq feet. The natural and spiritual environment offered at KGC helps students embody the essence of life and prepares them to face the world in a better way.

Culture has been an integral part of our society since the Pre-historic period. Culture all over the world has found expression in various forms which we categorize as tangible and intangible heritage. In both the forms it has provided us with an identity and therefore it is important to protect it for future generations. Protecting heritage is a shared responsibility of people across the globe as it is common to all human beings. It has to be understood beyond the Geographical, Political and Social Boundaries. With the growing conflicts in various parts of the world it has become imperative to look at cultural heritage beyond these boundaries and look into the necessary efforts and carve out new ways to protect it.
