

Faculty of Engineering & Technology, Gurukula Kangri (Deemed to Be University)
Haridwar
Department of Mechanical Engineering

Department of Mechanical Engineering was organized an event on the concept based to increase the creativity in students to make useful things using waste materials. Upcycling is the opposite of downcycling, which is the other part of the recycling process. Downcycling involves converting materials and products into new materials, sometimes of lesser quality. Most recycling involves converting or extracting useful materials from a product and creating a different product or material.

The students made a model of different types such as newspaper cycle ,lifting machine , wind power machine etc . This event organized on **1st October 2019** under the supervision of Dean of F.E.T Dr. Sunil Panwar ,Incharge of Department of Mr. Sanjeev Kumar Lambha and the coordinator Mr. Yogesh Kumar and the supportive staff of Mechanical department .
