Agenda of the 13th IQAC meeting to be held on 30.09.2023

Item 1: Action Taken Report (ATR) of 28.06.2023

Item 2: Research Promotion Policy

Details: Research and development and Extension are key functions of a University apart from teaching. Good quality research and its dissemination to wider academic and research audiences, on the one hand, and its applied content to its users for enhancing productivity and quality of life, on the other, are intrinsic to the academicians researchers. **To encourage the academic staff for their research activities, a need has been felt for sufficient incentives for Faculty Members involved in various research activities.**

A draft "Research Promotion Policy" fulfilling the above objective is being placed for consideration by the members.

Item 3: Guidelines for Differential Learning

Details: Teachers must deal with different students; some are very intelligent and learn quickly, while others are weak and slow. The poor performance may not be a sign of poor capacity or talent. Still, it may be due to inappropriate teaching methods, socio-economic background, lack of motivation and support, unorganized learning practices or even the inability to converse in a devised way.

Therefore, it is required to determine the students' abilities in the class. Based on the ability determined, some students need only guidance, and some need hard work and regular attention. To determine the abilities in the class, a teacher has to recognize the students' learning attitudes and habits differently not to lose the attention of slow learners and not to turn off the **advanced learners**. A Standard Operating Procedure (SOP) to identify the slow and advanced learners of both UG and PG programs and assign supporting activities for both groups is required to be in place.

A draft of "Guidelines for Differential Learning" fulfilling the above objective is being placed for consideration by the members.

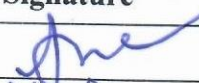

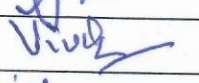

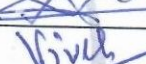

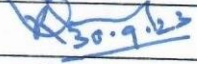

Item 4: Any other matter with the permission of the chair
