

Workshop on Career Opportunities in Civil Services on 11 sep 2025 by Vajiram and Ravi IAS Academy

Workshop on Career Opportunities in Civil Services successfully organized at Faculty of Engineering and Technology, Gurukul Kangri University Haridwar, 12 September 2025: The team of the reputed coaching institute Vajiram & Ravi organized an inspirational and informative workshop on the topic “Career Opportunities in Civil Services” at the Faculty of Engineering and Technology (FET), Gurukul Kangri (Deemed to be University), Haridwar.

The session was conducted under the leadership of experienced experts of the institute, Mr. Samar and Mr. Akash. On this occasion, Dr. Suyash Bhardwaj, Training and Placement Officer and Incharge CAOC of the University, while coordinating the program, said that the aim of the workshop is to provide direct guidance to the students about the preparation, strategy, and opportunities of civil services. A total of 65 students actively participated in this workshop and during the session, the students asked many important questions.

The speakers shared their personal experiences and guided the students on the selection process, preparation methods, strategies and personal experiences of the civil services. The most notable feature of the workshop was the active participation of 65 students, which played a vital role in making the event a success. During the entire session, the students asked many inquisitive questions related to the selection process of civil services, choice of optional subjects, time management, interview preparation and changing pattern of examination.

The experts shared their experiences and guidance and made it clear that discipline, proper use of time and proper guidelines are very important to succeed in prestigious examinations like civil services. The atmosphere of the entire workshop was full of enthusiasm, energy and curiosity, which instilled new motivation and confidence in the students.

Head of the Department, Prof. Mayank Agarwal said, “Our engineering students are not limited to the technical field only, but can also play a major role in areas like administration and policy making. Such workshops provide them with a broader perspective and encourage them to pursue prestigious career options like civil services.”

Dean, Faculty of Engineering and Technology, Prof. Vipul Sharma said, “FET has always strived to provide multifaceted opportunities to students. A career in civil services is not just a personal achievement but also a means of contributing to society and the nation. Such sessions inspire our students to become self-confident citizens committed to nation building”.

Hon’ble Vice Chancellor, Prof. Hemalatha K. Expressing her views, said, “Gurukul Kangri University has always tried to impart value-based education along with academic excellence to its students. This workshop not only underlines the importance of civil services but also gives students an opportunity to understand how they can use their knowledge and skills for the upliftment of society. Such events further strengthen the tradition of the university that the purpose of education is not only to get a job but to give a better direction to the society.”

At the end of the program, Dr. Prashant Kaushik expressed his gratitude to the Vajiram & Ravi team, all the guests, professors and students and said, “The experiences shared by Mr. Samar and Mr. Akash have given a new direction to our students. Their words made it clear that with the right guidance and determination, even challenging goals like civil services can be achieved. I thank all the participants and associate professors who played an important role in making this workshop a success.”

This workshop was not only an educational opportunity for the students but also proved to be broadening their outlook towards their career. The students described it as an inspiring and useful experience and expressed their wish to organize such workshops in the future as well. This event reestablished the tradition of FET, in which apart from technical education, students are also prepared for leadership, policy-making and social contribution.
