Report on Campus Recruitment Drive

Pisoft Informatics Pvt. Ltd.

A **campus recruitment drive** was conducted by **Pisoft Informatics Pvt. Ltd.**

on **3rd November 2025** at the **Faculty of Engineering and Technology** as part of their **internship and technical evaluation process**.

As part of the selection procedure, the company conducted an **Online Machine Round Test** to assess the technical skills of participating students. Two students from **B.Tech (Computer Science & Engineering), 7th Semester** were shortlisted for the machine round:

- **Suraj Singh**
- **Rajnish Yadav**

After evaluation, **Suraj Singh was disqualified** due to non-adherence to test guidelines. **Rajnish Yadav successfully completed the submission**; however, he did not qualify for the next stage owing to **incomplete implementation** of the assigned task titled *"Advanced Sales Data Analytics System."*

The evaluation highlighted that while the student demonstrated basic understanding of **Python and data handling**, key components such as **advanced analytics, forecasting, visualization, and reporting** were missing.

The recruitment activity was conducted smoothly with the support and coordination of the Placement Cell.
