

## **Report Digital Entrepreneurship Workshop Organized at DPS Daultapur, Haridwar on December 26, 2025**

A highly informative and engaging Digital Entrepreneurship Workshop was organized on 26 December 2025 at Delhi Public School Daultapur. The program witnessed active participation from faculty members and a large number of students, reflecting the growing interest among young learners in emerging digital technologies.

The expert lecture was delivered by Dr. Suyash Bhardwaj, who conducted comprehensive sessions on the latest technological advancements. In the first half of the workshop, Dr. Bhardwaj introduced students to cutting-edge domains such as Artificial Intelligence (AI), Machine Learning (ML), Deep Learning, Internet of Things (IoT), and emerging digital innovations. He explained the fundamental concepts in a simplified and relatable manner, enabling school students to grasp complex ideas with ease.

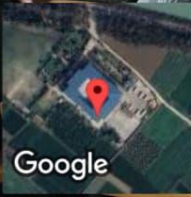

During his lecture, Dr. Bhardwaj emphasized that “Artificial Intelligence is shaping the future of every sector, from healthcare to education and industry. Students who begin understanding these technologies today will become the innovators and leaders of tomorrow.” He encouraged participants to explore coding, participate in technology competitions, and build small projects to strengthen their technical foundations.

In the second half of the session, Dr. Bhardwaj delivered an insightful lecture on Cyber Security and Cyber Safety. He discussed common cyber threats such as phishing, hacking, identity theft, and online fraud, and provided practical guidance on safe internet usage. He stressed the importance of creating strong passwords, protecting personal data, and being responsible digital citizens. He remarked, “Technology is powerful, but with power comes responsibility. Cyber awareness is essential for every digital user.”

The workshop featured a highly interactive question-and-answer session where students enthusiastically raised queries related to AI applications, career opportunities, ethical concerns, and cybersecurity challenges. The interactive round reflected the curiosity and eagerness of students to learn about modern technologies. Dr. Bhardwaj patiently addressed their questions, making the session dynamic and engaging.

The program was graced by the presence of the school leadership and faculty members. Principal Poonam Ma'am felicitated Dr. Suyash Bhardwaj in recognition of his valuable contribution and insightful session. The event was efficiently coordinated by Ms. Anchal from DPS, whose efforts ensured the smooth conduct of the workshop.

The Digital Entrepreneurship Workshop proved to be a highly enriching experience for the students and faculty alike. It not only enhanced awareness about emerging technologies but also motivated students to pursue innovation-driven learning and responsible digital practices in the evolving technological landscape.
