

## ERP System

The ERP system at **Gurukula Kangri (Deemed to be University) (GKV)**, Haridwar, is a centralized digital infrastructure designed to streamline academic and administrative workflows. The university utilizes its own dedicated GKVEDU portal for internal student and staff services. The university is planning to utilize national Samarth eGov Suite also for standardized university governance.

### Modules

The ERP system comprises the following modules:

- I. Establishment
- II. Educational
- III. Finance
- IV. PF
- V. HR
- VI. Evaluation
- VII. Vidyalaya Vibhag

### Core Functionalities

The ERP serves as a one-stop platform for multiple university operations:

- **Admission & Student Lifecycle:** Manages the entire process from initial online application and registration to enrolment and digital ID card generation. It facilitates online counselling and generation of fees challan to students through portal for submitting counselling and admission fees.
- **Academic Management:** Tracks student records, course details, and provides a framework for Continuous Internal Assessments (CIAs) and semester grading.
- **Examination Portal:** Facilitates online exam form filing, hall ticket generation, and result publication.
- **Finance & Fee Management:** Provides secure online fee payment through online payment gateway for tuition, transcripts, and other administrative services.
- **Staff & Faculty Services:** Includes modules for employee login, payroll, and administrative tasks like group insurance, monthly income tax deduction reports, leave management, children and medical allowance module and income tax declaration form.
